CONFIDENTIALITY AND SECURITY

SVHC is committed to protecting the confidentiality of patient health information and the health, safety and wellness of patients and staff.

The HIPAA Privacy Rule (45 CFR Part 160) establishes national standards to protect individuals' medical records and other individually identifiable health information (collectively defined as "protected health information" or "PHI") and sets limits and conditions on the uses and disclosures of such information without an individual's authorization. The Rule also gives individuals rights over their protected health information, including rights to examine and obtain a copy of their health records.

42 CFR Part 2's general rule places privacy and confidentiality restrictions upon substance use disorder treatment records. Substance abuse disorder treatment programs are subject to the privacy regulations imposed under 42 CFR Part 2, and the HIPAA Privacy Rule.

SVHC may use secure surveillance cameras in the lobbies and other public areas of the building, as posted for public notification, for the safety and protection of all. SVHC will not videotape or otherwise record patient encounters except with the advance written consent of the patient and only for such dates, times and purposes as the patient may expressly agree. SVHC prohibits the taping by patients of health care encounters with SVHC staff, unless the staff person is notified in advance and consents in writing and the date, time and purpose of the recording can be documented in the patient record. By signing this form, the patient acknowledges that SVHC may withhold healthcare services if a patient requires, or otherwise attempts to videotape or record the delivery of healthcare services by SVHC.
